

Academy Zee (logicals)

Key features of the app:

Teachers/Admin;

- # list of upcoming classes for ease of class maintenance.

- # Segregation between ICSE, CBSE, or mechanical Engineering as of to maintain student list.

- # Assessing students upon their marks (now in the app) for ease of performance. Uploaded Answer sheets can be seen by students (individually for each uploaded answer sheet of their own.)

- # Showing toppers (assessed only by percentage)

↳ This feature is about to create.

students;

- # Students can view their results in marks i.e. $\frac{75}{80}$ or as percentage%, like 93.75% or an emoji

this feature is automated
more details on pg:

The data
of the marks
obt. is entered through
input.

Segregated - Announcements:

The announcements will be segregated on the basis of the student boards. Announcements can be of like, "Holiday Notice", "Test Notice: mention names for people having test."

BIAS Features

Profile Info: Once uploaded cannot be changed by student, only the dev. can.

BIAS

BIAS is the few flaws that are left out by the dev. wantedly which is actually USEFULL
INDIRECTLY sometimes
